

**REMARKS/ARGUMENTS**

This application has been carefully considered in light of the office action under ex Parte Quayle issued December 16, 2004. As a result, amendments have been made to the Title and Specification and a new Abstract is submitted herewith on a separate sheet.

Claims 6,8,11,13 and 14 have objected to for using the phraseology "and/or". In this respect, these claims have been amended.

Claims 1-5, 10, 15, 16 and 17 have been allowed and the remaining claims only objected to for formal matters. In reviewing the claims, it was noted that some potentially objectionable language under 35 U.S.C. 112, second paragraph, may have been included in the allowed claims. Therefore, claims 1-17 have been amended to overcome such a problem without changing the inventive scope defined thereby. It is respectfully requested that claims 1-17 be allowed as amended. No new matter is being submitted.

Should the Examiner have any questions with respect to this matter or the amendments submitted herewith, it would be appreciated if the Examiner would contact the undersigned Attorney-of-record at the telephone number shown below for
